## 3. Changes in Accounting Policies and Disclosures

### New Standards and Interpretations Issued and Effective as of January 1, 2013

The accounting policies adopted are consistent with those of the previous financial year except for the following new, amended and improved PFRS and Philippine Interpretations which were adopted as of January 1, 2013:

- PFRS 7, *Financial Instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities* (Amendments), These amendments require an entity to disclose information about rights of set-off and related arrangements (such as collateral agreements). The new disclosures are required for all recognized financial instruments that are set-off in accordance with PAS 32, *Financial Instruments: Presentation*. These disclosures also apply to recognized financial instruments that are subject to an enforceable master netting arrangement or similar agreement<sup>ø</sup> irrespective of whether they are set-off in accordance with PAS 32. The amendments require entities to disclose, in a tabular format unless another format is more appropriate, the following minimum quantitative information. This is presented separately for financial assets and financial liabilities recognized at the end of the reporting period:
  - (a) The gross amounts of those recognized financial assets and recognized financial liabilities;
  - (b) The amounts that are set-off in accordance with the criteria in PAS 32 when determining the net amounts presented in the statement of financial position;
  - (c) The net amounts presented in the statement of financial position;
  - (d) The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in (b) above, including:
    - i. Amounts related to recognized financial instruments that do not meet some or all of the offsetting criteria in PAS 32; and
    - ii. Amounts related to financial collateral (including cash collateral); and
  - (e) The net amount after deducting the amounts in (d) from the amounts in (c) above.

The amendments to PFRS 7 are to be retrospectively applied and are effective for annual periods beginning on or after January 1, 2013. The amendments affect disclosures only and have no impact on the Company's financial position or performance.

- PFRS 10, *Consolidated Financial Statements*, PFRS 10 replaces the portion of PAS 27, *Consolidated and Separate Financial Statements*, that addresses the accounting for consolidated financial statements. It also includes the issues raised in Standing Interpretation Committee (SIC) 12, *Consolidation - Special Purpose Entities*. PFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by PFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and

therefore, are required to be consolidated by a parent, compared with the requirements that were in PAS 27. The standard becomes effective for annual periods beginning on or after January 1, 2013.

A reassessment of control was performed by the Parent Company on all its subsidiaries in accordance with the provisions of PFRS 10. Following the reassessment, the Parent Company determined that it still controls all of its subsidiaries.

PFRS 11, *Joint Arrangements*, PFRS 11 replaces PAS 31, *Interests in Joint Ventures*, and SIC 13, *Jointly Controlled Entities - Non-Monetary Contributions by Venturers*. PFRS 11 removes the option to account for jointly controlled entities using proportionate consolidation. Instead, jointly controlled entities that meet the definition of a joint venture must be accounted for using the equity method. The standard becomes effective for annual periods beginning on or after January 1, 2013. The adoption of the revised standard has no impact on the Company's consolidated financial statements.

- PFRS 12, *Disclosure of Interests in Other Entities*, PFRS 12 includes all of the disclosures related to consolidated financial statements that were previously in PAS 27, as well as all the disclosures that were previously included in PAS 31 and PAS 28, *Investments in Associates*. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. The standard becomes effective for annual periods beginning on or after January 1, 2013.

The adoption of PFRS 12 affect disclosures only and have no impact on the Company's financial position or performance.

- PFRS 13, *Fair Value Measurement*, PFRS 13 establishes a single source of guidance under PFRSs for all fair value measurements. PFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under PFRS when fair value is required or permitted. This standard should be applied prospectively as of the beginning of the annual period in which it is initially applied. Its disclosure requirements need not be applied in comparative information provided for periods before initial application of PFRS 13. The standard becomes effective for annual periods beginning on or after January 1, 2013.

The adoption of the interpretation has no impact on the Company's financial position or performance.

- PAS 1, *Presentation of Financial Statements - Presentation of Items of Other Comprehensive Income (OCI)* (Amendments), The amendments to PAS 1 change the grouping of items presented in OCI. Items that can be reclassified (or "recycled") to profit or loss at a future point in time (for example, upon derecognition or settlement) will be presented separately from items that will never be recycled. The amendments affect presentation only and have no impact on the Company's financial position or performance. The amendment affects presentation only and has therefore no impact on the Company's financial position or performance.
- PAS 19, *Employee Benefits* (Revised), Amendments to PAS 19 range from fundamental changes such as removing the corridor mechanism and the concept of expected returns on plan assets to simple clarifications and rewording. The revised standard also requires new disclosures such as, among others, a sensitivity analysis for each significant actuarial assumption, information on asset-liability matching strategies, duration of the defined benefit obligation, and disaggregation of plan assets by nature and risk. The amendments become effective for annual periods beginning on or after January 1, 2013. Once effective, the Company has to apply the amendments retroactively to the earliest period presented.

The Company reviewed its existing employee benefits and determined that the amended standard has significant impact on its accounting for retirement benefits. The Company obtained the services of an external actuary to compute the impact to the financial statements upon adoption of the standard.

The company has adopted this standard and the impacts is:

- PAS 27, *Separate Financial Statements* (as revised in 2011), As a consequence of the issuance of the new PFRS 10, *Consolidated Financial Statements*, and PFRS 12, *Disclosure of Interests in Other Entities*, what remains of PAS 27 is limited to accounting for subsidiaries, jointly controlled entities, and associates in the separate financial statements. The adoption of the amended PAS 27 has no significant impact on the separate financial statements of the entities in the Company.
- PAS 28, *Investments in Associates and Joint Ventures* (as revised in 2011), As a consequence of the issuance of the new PFRS 11, *Joint Arrangements*, and PFRS 12, *Disclosure of Interests in Other Entities*, PAS 28 has been renamed PAS 28, *Investments in Associates and Joint Ventures*, and describes the application of the equity method to investments in joint ventures in addition to associates. The amendment becomes effective for annual periods beginning on or after January 1, 2013. The adoption of the revised standard has no impact on the Company's financial position or performance.

- Philippine Interpretation IFRIC 20, *Stripping Costs in the Production Phase of a Surface Mine*. This interpretation applies to waste removal costs (‘stripping costs’) that are incurred in surface mining activity during the production phase of the mine (‘production stripping costs’). If the benefit from the stripping activity will be realized in the current period, an entity is required to account for the stripping activity costs as part of the cost of inventory. When the benefit is the improved access to ore, the entity should recognize these costs as a non-current asset, only if certain criteria are met (‘stripping activity asset’). The stripping activity asset is accounted for as an addition to, or as an enhancement of, an existing asset. After initial recognition, the stripping activity asset is carried at its cost or revalued amount less depreciation or amortization and less impairment losses, in the same way as the existing asset of which it is a part. The interpretation is effective for annual periods beginning on or after January 1, 2013. This new interpretation is not relevant to the Company.

#### Improvements to PFRSs (2009-2011 cycle)

The *Annual Improvements to PFRSs (2009-2011 cycle)* contain non-urgent but necessary amendments to PFRSs. The amendments are effective for annual periods beginning on or after January 1, 2013 and are applied retrospectively.

- PFRS 1, *First-time Adoption of PFRS - Borrowing Costs*

The amendment clarifies that, upon adoption of PFRS, an entity that capitalized borrowing costs in accordance with its previous generally accepted accounting principles, may carry forward, without any adjustment, the amount previously capitalized in its opening statement of financial position at the date of transition. Subsequent to the adoption of PFRS, borrowing costs are recognized in accordance with PAS 23, *Borrowing Costs*. The amendment does not apply to the Company as it is not a first-time adopter of PFRS.

- PAS 1, *Presentation of Financial Statements - Clarification of the requirements for comparative information*

The amendments clarify the requirements for comparative information that are disclosed voluntarily and those that are mandatory due to retrospective application of an accounting policy, or retrospective restatement or reclassification of items in the financial statements. An entity must include comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The additional comparative period does not need to contain a complete set of financial statements. On the other hand, supporting notes for the third balance sheet (mandatory when there is a retrospective application of an accounting policy, or retrospective restatement or reclassification of items in the financial statements) are not required. The amendments affects presentation only and has therefore no impact on the Company’s financial position or performance.

- PAS 16, *Property, Plant and Equipment - Classification of servicing equipment*

The amendment clarifies that spare parts, stand-by equipment and servicing equipment should be recognized as property, plant and equipment when they meet the definition of property, plant and equipment and should be recognized as inventory, if otherwise. The amendment does not have any significant impact on the Company’s financial position or performance.

- PAS 32, *Financial Instruments: Presentation - Tax effect of distribution to holders of equity instruments*

The amendment clarifies that income taxes relating to distributions to equity holders and to transaction costs of an equity transaction are accounted for in accordance with PAS 12. The adoption of the amendment does not have any impact on the Company’s financial position or performance.

- PAS 34, *Interim Financial Reporting - Interim financial reporting and segment information for total assets and liabilities*

The amendment clarifies that the total assets and liabilities for a particular reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change from the amount disclosed in the entity's previous annual financial statements for that reportable segment. The amendment affects disclosures only and has no impact on the Company's financial position or performance.

#### New Accounting Standards, Interpretations and Amendments to Existing Standards Effective in 2014

The Group will adopt the following new standards, interpretations and amendments to existing standards enumerated below when these become effective. Except as otherwise indicated, the Group does not expect the adoption of these revised standards and amendments to PFRS to have a significant impact on the Group's interim consolidated financial statements.

##### *Effective 2014*

- PAS 32, *Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities*  
The amendments clarify the meaning of "currently has a legally enforceable right to set-off" and also clarify the application of the PAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. The amendments affect presentation only and have no impact on the Company's financial position or performance. The amendments to PAS 32 are to be retrospectively applied for annual periods beginning on or after January 1, 2014.

##### *Effective 2015*

PFRS 9, *Financial Instruments*, PFRS 9, as issued, reflects the first phase on the replacement of PAS 39 and applies to the classification and measurement of financial assets and liabilities as defined in PAS 39, *Financial Instruments: Recognition and Measurement*. Work on impairment of financial instruments and hedge accounting is still ongoing, with a view to replacing PAS 39 in its entirety. PFRS 9 requires all financial assets to be measured at fair value at initial recognition. A debt financial asset may, if the fair value option (FVO) is not invoked, be subsequently measured at amortized cost if it is held within a business model that has the objective to hold the assets to collect the contractual cash flows and its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal outstanding. All other debt instruments are subsequently measured at fair value through profit or loss. All equity financial assets are measured at fair value either through other comprehensive income (OCI) or profit or loss. Equity financial assets held for trading must be measured at fair value through profit or loss. For FVO liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. All other PAS 39 classification and measurement requirements for financial liabilities have been carried forward into PFRS 9, including the embedded derivative separation rules and the criteria for using the FVO. The Group conducted an evaluation of the early adoption of PFRS 9 and has assessed that the first phase of PFRS 9 will have an effect on the classification and measurement of financial assets. The Group will quantify the effect on the interim consolidated financial statements in conjunction with the other phases, when issued, to present a comprehensive picture.

PFRS 9 will become effective for annual periods beginning on or after January 1, 2015.

##### *Deferred Effectivity*

- Philippine Interpretation IFRIC 15, *Agreement for the Construction of Real Estate*

This interpretation covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The interpretation requires that revenue on construction of real estate be recognized only upon completion, except when such contract qualifies as construction contract to be accounted for under PAS 11, *Construction Contracts*, or involves rendering of services in which case revenue is recognized based on stage of completion. Contracts involving provision of services with the construction materials and where the risks and reward of ownership are transferred to the buyer on a continuous basis will also be accounted for based on stage of completion. The SEC and the Financial Reporting Standards Council have deferred the effectivity of this interpretation until the final Revenue standard is issued by the International Accounting Standards Board and an evaluation of the requirements of the final Revenue standard against the practices of the Philippine real estate industry is completed.

#### 4. Summary of Significant Accounting and Financial Reporting Policies

##### Principles of Consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Parent Company and all of its subsidiaries as at June 30, 2013.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date when such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Non-controlling interests represents the portion of profit or loss, other comprehensive income and net assets not held by the Group and are presented separately in the consolidated statements of income, consolidated statements of comprehensive income and within equity section the consolidated balance sheets, separately from equity attributable to owners of the Parent.

#### 5. Significant Accounting Judgments, Estimates and Assumptions

The accompanying interim condensed consolidated financial statements prepared in conformity with PFRS require management to make judgments, estimates and assumptions that affect the amounts reported in the interim condensed consolidated financial statements and related notes. In preparing the Company's interim condensed consolidated financial statements, management has made its best judgments, estimates and assumptions of certain amounts, giving due consideration to materiality. The judgments, estimates and assumptions used in the accompanying interim condensed consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the interim condensed consolidated financial statements. Actual results could differ from such estimates.

The Company believes the following represents a summary of these significant judgments, estimates and assumptions and related impact and associated risks in its interim condensed consolidated financial statements.

##### Judgment

In the process of applying the Company's accounting policies, management has made the following judgment, apart from those involving estimations, which have the most significant effect on the amounts recognized in the Company's interim condensed consolidated financial statements:

*Loss of Significant Influence Over AB Capital.* The Company lost significant influence of AB Capital effective June 29, 2012 in favor of Vicsal due to the following:

- a. The conditions precedent required for the Vicsal to takeover AB Capital under the signed Share Purchase Agreement dated March 25, 2011 have been met;
- b. PHINMA tendered an irrevocable proxy and special power of attorney to sell and cause the transfer of AB Capital shares subject to completion of return of capital; and
- c. All income, gains and losses of AB Capital will be for the account of the Vicsal upon takeover.

The sale transaction of AB Capital is not fully consummated pending completion of certain closing conditions, such as, the return of PHINMA assets in the form of ABCIC Property shares. This condition is substantive and is significant for the sale of AB Capital shares to be completed.

#### Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

## 6. Business Combinations and Acquisition of Non-controlling Interests

### Acquisition in Fuld US

In August 2012, FULD US acquired Outward Insights, LLC by issuing FULD US common stock. Goodwill arising from acquisition amounted to ₱6.1 million.
